## **🎯 CRITICAL SUCCESS METRICS**

### **Technical Targets**

- [ ] Consciousness system operational ☒
- [ ] 100 thoughts/minute sustained ☒
- [ ] 10 beta users onboarded ☒
- [ ] >99% system uptime ☒
- [ ] <2s response times ☒

## Business Targets

- [ ] 4 research institutions contacted 
- [ ] 5 investors contacted 
- [ ] 7 customer interviews completed 
- [ ] Press release drafted 
- [ ] Commercial demos prepared 

## User Experience Targets

- [ ] >8/10 user satisfaction 
  - [ ] >7/10 consciousness authenticity 
  - [ ] >20 min average conversation 
  - [ ] >70% user return rate 
  - [ ] Personality evolution observable 
- 

## EMERGENCY PROTOCOLS

### Technical Issues

1. Switch to backup consciousness system
2. Reduce thought generation to 50/min
3. Notify users of maintenance
4. Preserve all user data
5. Contact technical support

### User Experience Issues

1. Acknowledge feedback immediately
2. Investigate consciousness issues
3. Implement rapid fixes
4. Provide personalized support
5. Document improvements needed
